What You Need to Know About Overdrafts and Overdraft Fees
Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments
- Recurring Debit Card transactions
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$35** each time we pay an overdraft (maximum of three (3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$35** will be charged on the sixth (6th) Business Day after your account has been overdrawn by any amount for five (5) consecutive Business Days. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Automatic bill payments
- Recurring Debit Card transactions
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts.

In Case of Errors or Questions About Your Electronic Transfers Telephone us at the Customer Service Center phone number shown on the top of your statement or write us at the address listed below as soon as you can, if you think your statement or receipt is wrong or if you need more information about a transfer on the statement or receipt.

What You Need to Know About Overdrafts and Overdraft Fees

Overview

An overdraft occurs when you do not have enough money in your account to cover a transaction, but we pay it anyway. We can cover your overdrafts in two different ways:

1. We have standard overdraft practices that come with your account.
2. We also offer an overdraft protection plan, which allows you to link other deposit accounts, such as a savings account, to cover overdrafts in your checking account. This plan may be less expensive than our standard overdraft practices. To learn more, ask us about this plan.

This notice explains our standard overdraft practices.

What are the standard overdraft practices that come with my account?

We do authorize and pay overdrafts for the following types of transactions:

- Checks and other transactions made using your checking account number
- Recurring Debit Card transactions
- Automatic bill payments
- Online Banking payments and transfers

We do not authorize and pay overdrafts for the following types of transactions unless you ask us to (see below):

- ATM transactions
- One-time Debit Card purchases

We pay overdrafts at our discretion, which means we do not guarantee that we will always authorize and pay any type of transaction. If we do not authorize and pay an overdraft, your transaction will be declined.

What fees will I be charged if Santander pays an overdraft?

Under our standard overdraft practices:

- We will charge you a fee of up to **\$15** each time we pay an overdraft (maximum of three(3) per Business Day).
- We will only charge you an overdraft fee if the balance on your account is overdrawn by more than **\$100**.
- An additional one-time fee of **\$15** applies to accounts overdrawn by any amount (negative balance) for five (5) consecutive Business Days when the overdrawn balance at the end of the first day is more than **\$100**, and is assessed to the account on the sixth (6th) Business Day. This charge generally applies to checking, savings, and money market savings accounts. See the Fee Schedule for details.

What if I want Santander to authorize and pay overdrafts on my ATM and one-time Debit Card transactions?

If you want us to authorize and pay overdrafts on ATM and one-time Debit Card transactions, visit a Santander branch or call our Customer Service Center at **877-768-2265**. You can also make this change in Santander Online or Mobile Banking.

Can I change my mind later?

If you tell us that we are permitted to pay any overdrafts caused by ATM or one-time debit transactions, you can always change your mind and tell us you no longer want us to do this.

You can visit any Santander branch or call us at 877-768-2265 to tell us you no longer want us to pay these types of overdrafts. You can also make this change in Santander Online or Mobile Banking.
