

## Sending Your Mortgage Assistance Documents

We have several options to submit your documentation:

- **Online:** [Sign in](#) to your online account.
- **Email:** [modification.assistance@mrcooper.com](mailto:modification.assistance@mrcooper.com)
- **Fax:** 214-488-1993
- **Mail:**

Mr. Cooper  
Attn: Centralized Mod Department  
PO Box 619097  
Dallas, TX 75261

However you send your documents, please be sure to include a note including your name, loan number, property address, and contact information.

Finally, if you have been making payments and have been led to believe they are going towards a trial or modification agreement, but we have no record of the payments, then something may be wrong. Please [contact us](#) as soon as possible so we can research the issue.

## Refinancing May Be an Option for Mortgage Assistance

If it's getting harder to make your payments but you haven't fallen behind yet, you may have a simple, effective option: Refinancing your mortgage to one with a lower monthly payment.

- To refinance as part of a mortgage assistance plan, your account needs to be current for the past 6 months.
- Also, there can't be more than one late payment on your account over the past 12 months.
- There are a few other eligibility requirements we'll be glad to go over with you when you [contact us about refinancing](#).

If you qualify, refinancing can be one of the easiest ways to get back on track without big impacts to your credit score or living situation.

## Applying for Mortgage Assistance

You can quickly apply for [mortgage assistance online](#). If you'd prefer to mail or fax your application—or if you don't have an online account—you can [download](#) it here.

**Note:** If you're currently engaged in an active bankruptcy, please consult with your attorney before submitting a mortgage assistance application.

When applying for mortgage assistance, time is of the essence, especially if you're already getting collection notices or already in the foreclosure process.

## Documents Needed for Mortgage Assistance

The mortgage assistance application lists all required documentation. If additional information is needed during the underwriting review, we'll contact you to inform you of the documentation needed and provide a reasonable timeframe to return the documents requested.

**Note:** The document requirements will be unique to you and your situation.

## Application Process

1. When we receive your application and supporting documentation, we'll send you a letter to inform you whether your application is complete or if additional information or documentation is required.

**Note:** In some cases, when we have sufficient information on file, a customer may be eligible to submit an expedited application or not have to submit an application at all. If this applies to you, you'll see "Eligible for Expedited Application" when you request [assistance online](#).

Each time we need to communicate with you, we send a letter to the [mailing address](#) on file. You can also see the status of the review on your [online account](#).

2. If the application is complete and no further information or documentation is needed, we will evaluate your application and provide a decision letter **within 30 days** from the date the application was deemed to be complete.
3. If additional information or documentation is needed during underwriting, you will receive a letter listing the documentation needed and a due date to submit them to us.
  - If the required information/documentation is **submitted by the due date**, we will evaluate your application and provide a decision letter **within 30 days** from the date that we receive it.
4. In determining whether you are eligible for a modification program, we may obtain a valuation of your property such as an appraisal or BPO (Broker's Price Opinion). In this case, we will promptly provide you with a copy of any such valuation regardless of whether you are approved for a modification. Copies of valuations will be provided at no cost to you.

If you have further questions, please [contact us](#).

If your mortgage requires one, you're probably familiar with what an [escrow account](#) is. These are accounts that mortgage servicers (the company you send your mortgage payment to) use to save money to pay your property taxes and insurance. To fund them, a portion of your mortgage payment goes into the account each month toward your estimated costs. But you may ask, how do servicers *estimate* how much I'll need to pay? That's thanks to what's called an "escrow analysis." If you're a Mr. Cooper customer, here's how they work.

## Key Topics

- [What is an escrow analysis?](#)
- [When is an escrow analysis done?](#)
- [What if my escrow analysis projects a shortage or surplus?](#)
- [Additional escrow analysis resources](#)

## What is an escrow analysis?

An escrow analysis or "escrow review" is an evaluation of your escrow account that we do at least once a year. We look at how much you paid in property taxes and insurance over the past year, and then forecast how much you'll need in the coming year. In fact, federal law requires that mortgage servicers do this prior to the opening of an account and each subsequent year.

Your escrow analysis will focus on three major areas:

- Your expected taxes and insurance premiums for the coming year. (Have your costs gone up or down?)
- Your escrow account balance, monthly payment amount, and [minimum required balance](#). (Your minimum required balance is typically two times (2x) your monthly escrow payment.)
- The recent tax and insurance payments (or “disbursements”) we've made with your escrow funds.

Once the analysis is complete, you'll receive an [Escrow Review Statement](#). This will detail:

- How much you paid in escrow each month last year.
- How much we paid for your taxes and insurance.
- If your account ended up with a surplus or shortage. *Learn more about escrow shortages and surpluses below.*
- What your payment will be for the coming year.

Based on our projections, your [mortgage payment may go up or down](#) with your forecast taxes and insurance premiums.

*For more on how escrow payments are calculated, see [our article “Escrow 101.”](#)*

## When is an escrow analysis done?

The timing of your analysis depends on your property's state and is normally conducted around the same time each year. We typically time your analysis to be in sync with your state's property tax schedule. We'll also notify you when your analysis is coming up.

## Year-End Tax Statements

Your statement will be [available online](#) around the middle of January, leaving you plenty of time to reference it for filing your taxes.

If you are not signed up for Paperless, your statement will be mailed to you by January 31st.

## Form 1098 and Form 1099 Differences

The **Form 1098**—also known as Mortgage Interest Statement—is used to report the amount of **interest** and related expenses **you paid** on your mortgage during the tax year.

The purpose of a **Form 1099** is to record types of **income received** from sources other than your employer, the discharge of a debt, or to notify that an event took place.

There are several types of Form 1099, but these are the only types we would send you, if necessary:

- **1099-A:** Used to alert the IRS that an event took place (foreclosure, deed in lieu of foreclosure, etc.)
- **1099-C:** Needed when a debt is cancelled, forgiven, or discharged.
- **1099-INT:** Needed when your escrow account earns \$10 or more in interest during the previous year.
- **1099-MISC:** Needed when customers received \$600 or more in cash benefits.

## Refinanced and Transferred Customers

- **Refinanced:**  
You'll receive two statements, one from each servicer, for each separate loan number.
- **Transferred:**  
You may receive two statements, one from each servicer; or you may receive a combined statement.

**Note:** Please refer to the dates listed on the year-end tax statement to determine if it covers the entire year.

## Minimum Required (Escrow) Balance

The minimum required balance is the **lowest positive balance allowed** in your escrow account **at any given time**—this positive balance is also known as a cushion requirement.

- This helps us minimize the impact to your monthly mortgage payment when property tax and insurance rates increase.

We typically require your escrow account to contain **two times (2x) your monthly escrow payment**, not including mortgage insurance, in accordance with state and federal law.

### Example:

If you're currently required to put \$500/month into escrow, your minimum required balance or escrow cushion could be \$1,000.
